# BIOCON: did management show its receipts?

A simulation built from public filings; not advice. Receipt = a number and a date.

## Lamps

**Analyst as lawyer**: S1 2/3 S2 1/3 S3 2/3 S4 0/3 S5 0/3 S6 1/3 S7 0/3 = 6 of 21, Wait

**SOIC seat as lawyer**: S1 2/3 S2 0/3 S3 0/3 S4 0/3 S5 1/3 S6 2/3 S7 0/3 = 5 of 21, Wait

## Red flags (both hearings)

**Debt due within a year** (both): 65,476 million falls due within a year against cash of 24,165 and current borrowings of 40,784. No covenant limit, ratio, unused credit line or leverage ceiling is on record.

**Operating cash halved** (both): Operating cash fell from 40,612 to 19,940 million while profit before working capital fell only 6.4%. Stock took 9,178 of cash; free cash was only 1,961.

**Guidance missed, not withdrawn** (both): Generics was guided to strong double-digit growth and filed 5.0%; a 10% to 12% margin guide came in at 5%. No call on record withdrew the growth guide.

**Related party deals unclear** (both): No total of related party deals; guarantees rose from 5,980 to 7,245, beneficiary unnamed. Mylan approval: notice says USD 400 million, agreement USD 815 million.

**Subsidiary auditor resigned** (both): B S R & Co. LLP quit as auditor of a material subsidiary effective 2026-08-06. Which subsidiary, why, and when the letter arrived are not on record.

**Old projects overdue** (analyst): Work in progress aged 2 to 3 years rose to 10,881 from 3,509 million; overdue projects rose to 19,894 from 6,478. No project names, dates or amounts into use.

**One-offs not sized** (analyst): Eris income of 10,570 million sits inside other income of 11,345, leaving 775 unexplained. The 4,029 net loss has no tax or minority split, so 7,885 is only a ceiling.

**Promoter shares rose unexplained** (analyst): Promoter shares rose 57,119 between 2026-03-31 and 2026-06-29 with no trade date, mode or plan. The feed shows 8,786,362 securities allotted, with no allottee list.

**Like-to-like growth unbridged** (soic): Management says like-to-like growth was 13%, but the filed figure is 10.9%. No rupee bridge exists, and no filing says what was removed.

**Chairperson pay not shown** (soic): The Executive Chairperson's pay is not in the record, and 21.30% of institutions' votes went against its revision on 2026-06-08.

**Latest quarter on new basis** (analyst): A Generics cross charge was moved out for the quarter to 2026-06-30 and is not on record, so that quarter cannot be compared with earlier rows.

**Interest costs not comparable** (soic): Finance costs rose mostly because less interest was capitalised: 5,884 in the year to 2025-03-31 against 1,597 in the year to 2026-03-31, so the years differ in basis.

## The ten questions: Analyst | SOIC seat

| | | |
|---|---|---|
| **I1** | *not asked* | **Profit fell from 10,133 million rupees to 3,856 million. What was this year's profit with one-off items removed, and which document says so?**<br>**torn receipt** BIOCON said the exact number is not in its record. It gave words but no figure. |
| **I2** | *not asked* | **What was the like-to-like base (the same business compared fairly) for the year to 2025-03-31, in Rs million, and which document's date states it?**<br>**torn receipt** BIOCON said it does not have the like-to-like base in Rs million, nor the date of the document that states it. |
| **I3** | **The operating margin (share of sales kept after running costs) was 19.5% for the quarter ended 2026-06-30. What had you stated before filing, and when?**<br>**torn receipt** BIOCON said its record has no consolidated operating margin stated for that quarter before filing, so it cannot give a date. | **For the year to 2026-03-31, which one numeric target did you state most firmly on a call? Give the measure, figure and call date.**<br>**torn receipt** It said the firmest target was a biosimilars (copies of biologic medicines) margin in the mid-20s, on a full year basis, on the call held 2026-02-13. |

| | | |
|---|---|---|
| **I4** | **Of Rs 6,597 million profit for the quarter ended 2024-06-30, how many Rs million were one-off, and when was that first stated?**<br>**torn receipt** BIOCON said its record has no total one-off figure in Rs million for that quarter, and no date management first stated one. | **Filed revenue went from 152,617 to 169,270 Rs million, but growth is printed as 14% like-to-like. What amount separates the two bases?**<br>**no receipt** BIOCON said the Rs million amount between the filed and like-to-like bases is not in its record, nor the page that defines it. |
| **I5** | **Cash from the business fell from 40,612 to 19,940 million rupees, while stock (inventories) rose. How much of the fall came from the stock build?**<br>**full receipt** BIOCON said the inventory line moved by 9,175 million rupees, a derived figure (worked out from other numbers). | **Stock took 9,178 million rupees of cash. How much of that is stock for products not yet on sale? Give the number and document date.**<br>**no receipt** BIOCON said it cannot give the share of the 9,178 million that is stock built for products not yet on sale. |
| **I6** | **By how many turns of EBITDA (yearly profit before interest, tax and wear) was net debt inside the lenders' limit at 2026-03-31?**<br>**no receipt** BIOCON said only that the group complied with its covenants throughout the year; it gave no gap in turns of EBITDA. | **Your report prints no covenant (lender rule) limit. What is the highest debt-to-profit ratio (net debt to EBITDA) lenders allow at the 2026-09-30 test?**<br>**no receipt** BIOCON said the limit is not in its record. |
| **I7** | **In the year to 2026-03-31, how many Rs million were paid or received under the approved connected-party deals with Mylan Inc., against the ceiling?**<br>**no receipt** BIOCON said it cannot give the Rs million running balance against the Mylan Inc. approval. | **Ceilings are not amounts moved. What was the total of related party (connected-company) deals made in the year ended 2026-03-31, in Rs million?**<br>**torn receipt** BIOCON said it has no single total for related party transactions in the year ended 2026-03-31, and its record prints no total row to build one. |
| **I8** | **Of the 728,081,295 promoter shares reported at 30-SEP-2026, what percentage was pledged (used to back a loan) or encumbered, and from which dated depository record?**<br>**torn receipt** BIOCON said that, as it reads the filed record, 0% of the 728,081,295 promoter shares was pledged or encumbered at 30-SEP-2026. | **Promoter stake fell from 60.64% to 44.91%. How many shares did it take up for cash in the 2026-01-05 preferential issue or 2026-01-14 placement?**<br>**full receipt** BIOCON said the filed counts show the promoter group added no shares in either raise. |
| **I9** | **How many hours passed between the board getting B S R & Co. LLP's reasons for resigning and Biocon filing them, and on what date?**<br>**no receipt** BIOCON said its record has no filing of the auditor's written reasons, no board receipt date and no filing timestamp. | **What written reason did B S R & Co. LLP give for resigning as subsidiary auditor, and when did the audit committee receive that letter?**<br>**no receipt** BIOCON said the written reason and the date its audit committee received the letter are not in its record. |
| **I10** | *not asked* | **On calls up to 2026-08-06, which one analyst question got no number though one was asked for? Give the figure asked and call date.**<br>**torn receipt** BIOCON said that, as of the record to 2026-08-06, it cannot name "the one" question. |
